Challenges in Acquiring Income-Producing Real Estate

- High investment capital threshold
- Experience required in choosing profitable properties
- Low risk diversification opportunities
- High maintenance cost for small volumes

- Low asset management competence
- Limited locality of asset placement
- Low asset exit liquidity
- Low scalability ability on the global market

There's a Way Out!

We propose to create capital and a source of constant income for yourself, from the profits in the income-producing real estate network, by acquiring the status of co-owner of the company's assets.

Build your own international business in the sphere of real estate tokenization consulting with turnkey training.

Meanwhile, travel and relax in our network's apartments across five continents.

StabilityInternational Platform

Marketing platform for the sale of tokenized assets in income-generating real estate

Idea

Create capital in income-generating real estate starting with a minimal budget

Travel around the world for less

Save up for your own apartment, without realizing it

Platform Mission

Allow anyone to develop and realize themselves for the benefit of humanity.

Platform Goal

Create a shared ownership system in income-generating real estate with timeshare possibilities for platform members with any budget, as well as provide an opportunity for continuous income from property rentals and active income through an affiliate program.

Business Concept

Envisages the purchase, construction, or restoration of real estate properties for further rental, by providing joint ownership for a wide range of consumers, expressed through the tokenization of assets.

How Does It Work?

10. Stability – How Does It Work?

————— International Platform

Token Functions

StAB token - reflects the market value of assets secured by the company MyEstate's income-generating real estate network.

Token holders receive bonuses from the company's profits. **StAB token** has a stable tendency towards the growth of the company's value, thanks to the capitalization of assets in real estate.

Opportunity to acquire the company's apartments into personal ownership with accumulated **StAB tokens**.

RenD token - a conditional unit for settlements on the «Stability International Platform». 1 RenD is equated to a value of 1 USDT.

Accepted as payment for rentals on the myReserve search engine.

RenD token - used for commission accruals, company profit bonuses, and is automatically placed in **Master Depo**, when purchasing a package.

Accruals for the user amount to up to **0.21% per day**, of the amount placed in **Master Depo** (up to 6% per month).

Smart accumulation

Save up for your own income-generating real estate and rentals in the company's apartments, using the magic of compound interest

- Set aside from **35 USDT** per month and receive **RenD** and **StAB tokens**.
- (2.) Set aside the amount that is comfortable for you.

- Opportunity to exchange **StAB token** for any company real estate.
- When booking apartments with **RenD tokens** on the MyReserve search engine, you get a discount on accommodation **from 10 to 90**%.
- 6. Opportunity to save through the activity of the structure

Reviews

What our visitors think and say about us

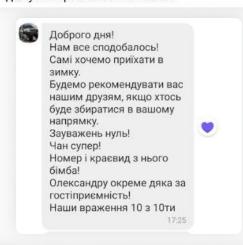

роботу бездоганно.

Ще те місце - куди при нагоді обов'язково повернемось. Тут забуваєш про всі турботи. Є тільки ти і гори, але з максимальним комфортом і затишком. Пречудова шумоізоляція - тиша яку ніхто не порушує. Якість відчувається у всьому. Ми їхали туди, щоб втекти від турбот проблем і буденності і нам це вдалось на всі 100%. До речі, можливість взяти із собою свого улюбленця, це теж на користь цього готелю.

Я не змогла знайти до чого приколупатися. Ну може тільки - занадто добре було тут, що і до дому повертатися не хотілося.

Якщо коротко, то з задоволенням арендовали цей будинок у наступному році.

Чудовий, новий будинок, дуже просторий та затишний, у кожного будинку є своя альтанка з мангалом і всім приладдям.
