# Binary Bonus

Comprises:

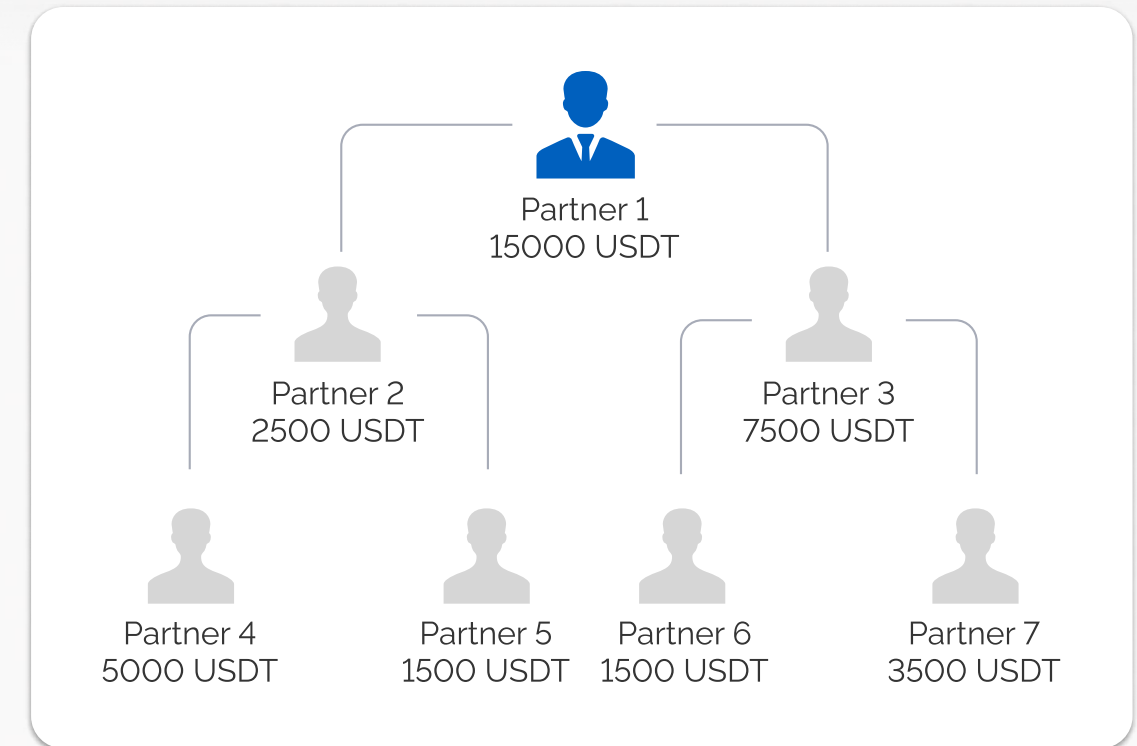

## Up to 11.5%

From the turnover of the team branch with the smaller volume on that day, but no more than 20% of the total turnover in the entire depth

The percentage (%) depends on your marketing package and the daily limit of up to 20% across the entire depth

- Placement in the structure happens automatically in 2 teams until a personal turnover of 5000 USDT is achieved in the sponsor branch
- The daily income limit equals the cost of the package, but no more than 25,000 USDT under the Royal Plus package
- Adjustment of payments across the entire depth of the structure is done daily according to a special formula to avoid exceeding the planned payments by more than 20% of the total turnover, making the binary plan stable and durable

Calculated from the full cost of the marketing package minus the activation key cost of **50 USDT**

For example: Partner 1 has two branches — Partner 2 with a daily turnover of **9,000 USDT** and Partner 3 with a daily turnover of **12,500 USDT**.

The binary bonus for Partner 1 is calculated as follows:  
 $9,000 \text{ USDT} \times 11\% = 990 \text{ USDT}$  — the binary bonus credited.

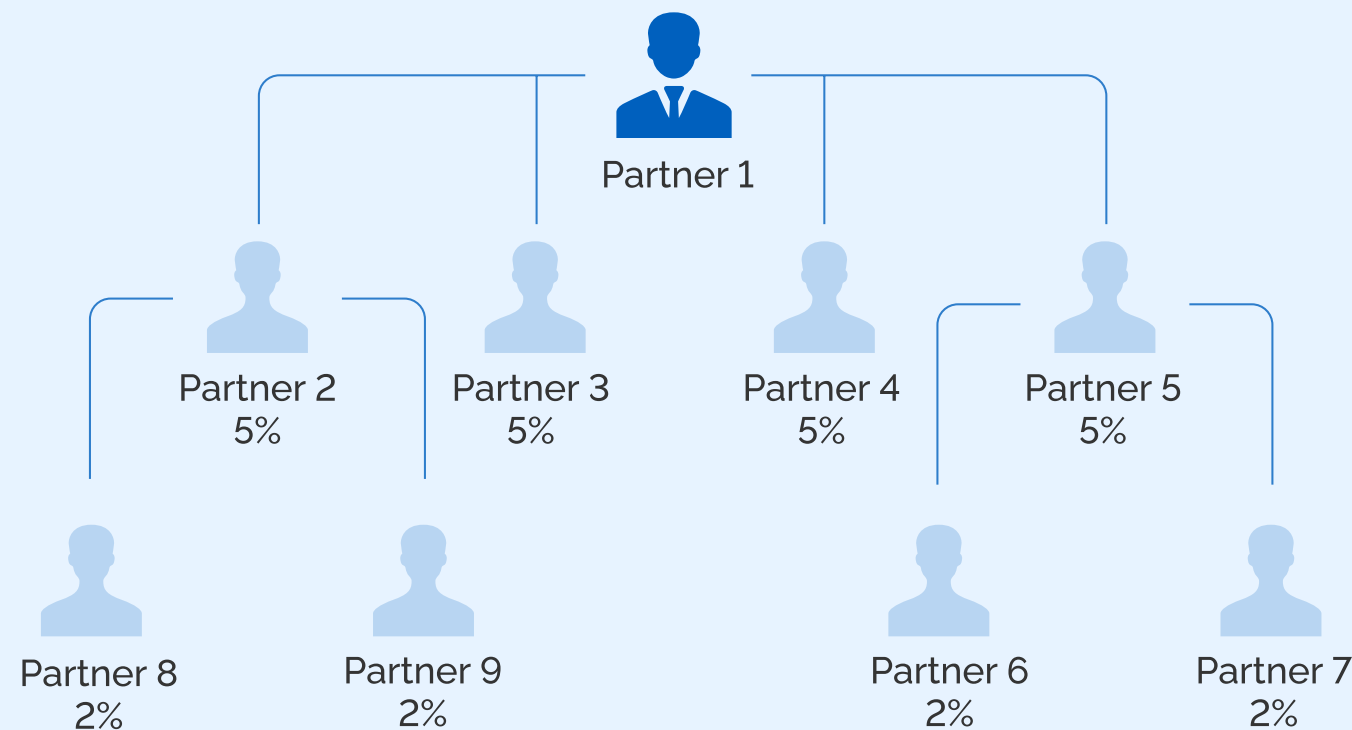

# Referral Bonus

## 5%

From the turnover of personally invited clients and partners

## 2%

From the turnover of second-line invites

Calculated from the full cost of the package, minus the activation key cost of **50 USDT**

### For example:

Partner 1 invited Partner 2 to the company with a payment for a marketing package of **7,500 USDT**.

Partner 1 receives **5% of the "Referral Bonus"** at the moment Partner 2 pays for the package.

**7500 USDT x 5% = 375 USDT**

(Referral Bonus for Partner 1)

If Partner 2 invites Partner 8 with a payment for a marketing package of **15,000 USDT**, then Partner 1 receives **2% of the "Referral Bonus."**

**15000 USDT x 2% = 300 USDT**

(Referral Bonus for Partner 1)

# Career Bonus

The Career Bonus is calculated and credited based on the percentage difference between the achieved rank and the rank of lower-ranking Partners, starting from personally recommended ones and across the entire depth of the structure, ranging **from 1% to 16%**, depending on the career rank, taking into account the business difference in the structure.

The cumulative turnover from packages and smart accumulation for achieving each subsequent rank **does not take into account the turnover of the previous rank**.

The cumulative turnover from smart accumulation for achieving each subsequent rank **resets on the 1st day of each calendar month**.

The cumulative turnover from smart accumulation for achieving each subsequent rank **considers no more than 50% from one branch**.

## Income from Smart Network Accumulation

When smart accumulation is paid in your personal network, your rewards are distributed according to the career bonus.

Specifically: from **1% to 16%** across the entire structure depth, depending on the career rank and business difference.

## Passive Bonus

After completing the "Luxury" car program and reaching a turnover of **1,500,000 USDT** for smart accumulation, the option to withdraw the passive bonus will be activated in the "My Savings" section.
