

Auto Program Stability Auto

Participation Conditions

Monthly turnover «Smart Accumulation» structure from **5 000 USDT**

Achieving the career rank of **Adviser**

- The company accrues a car bonus for purchasing a personal car.
- The leader is obliged to maintain turnover in smart accumulation to close “My Piggy Bank” and fulfill the conditions of the auto program.
- The cost of the car in «My Piggy Bank» equals the value of the car, plus interest on the «car payment.»
- The level of the auto program and the class of the car depend on the monthly volume of «Smart Accumulation» in the structure.
- To move to the next level of the auto program, «My Piggy Bank» must be fully completed and closed.

Stability Auto Program

When a leader appears in the structure who has fulfilled the conditions of the auto program, their turnover is also counted towards the qualification of the higher-level leader, with accrual from the turnover of "Smart Accumulation" in this structure according to the formula with a coefficient applied to 8 levels.
Level 1 - **7%**, Level 2 - **5%**, Level 3 - **2%**, Level 4 - **1%**, Level 5 - **1%**, Level 6 - **1%**, Level 7 - **1%**, Level 8 - **1%**.

If turnover is insufficient, you can continue participating in the program on the condition of partial reimbursement of the company's expenses until turnover stabilizes, but no more than 3 months per year.

The car is purchased independently, at the leader's choice - new or used up to five years of operation.

If there is a shortfall in the monthly payment to "My Piggy Bank," part of the payment will be deducted from referral rewards.

*The participant of the auto program has the right to replace the car with office rent, an annual trip for two, or real estate - using the "car bonus."

We wish you success!
